COUNCIL AND SCHOOL WORKERS

REJECT UNFAIR PAY

UNISON Local Government

An Unfair pay offer, vote to reject

UNISON is consulting members on the final NJC pay offer for Council, Schools and associated workers.

Further Real Pay Cut

At 1.75% (2.75% for Scale 1/ Grade A) this represents a further cut in real pay. Inflation is set to hit 4%, as is the increase in average pay (after taking out the Covid furlough effect). The value of Local Government pay had already fallen by a quarter since 2010.

Essential workers deserve fair pay

In the pandemic the true value of the essential work Local Government and Schools workers do have been all too obvious. But you deserve more than claps.

UNISON is clear—council and school workers deserve a fair and proper pay rise.

We strongly recommend members vote to reject this unfair offer.
